## Fișă de lucru 2

1. Calculează folosindu-te de imagini.

$$9 - 1 = 8$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

2. Scrie pe fiecare bulgăraș numărul cu 1 mai mic decât cel de pe omul de zăpadă.

# Fișă de lucru 3

1. Taie câte un element, scrie operația corespunzătoare și rezolvă.

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

2. Folosește axa numerelor pentru a rezolva următoarele scăderi:

9 - 1 =	7 - 1 =
10 - 1 =	5 - 1 =
3 - 1 =	4 - 1 =
6 - 1 =	2 - 1 =
8 - 1 =	1 - 1 =

2 - 1 =	1 - 1 =
5 - 1 =	4 - 1 =
6 - 1 =	5 - 1 =
3 - 1 =	2 - 1 =
7 - 1 =	6 - 1 =

3. Calculează și colorează de fiecare dată caseta cu rezultatul mai mic.

$$\begin{array}{c} 3 + 1 \\ \swarrow \searrow \\ \square \end{array}$$

$$\begin{array}{c} 3 - 1 \\ \swarrow \searrow \\ \square \end{array}$$

$$\begin{array}{c} 5 - 1 \\ \swarrow \searrow \\ \square \end{array}$$

$$\begin{array}{c} 5 + 1 \\ \swarrow \searrow \\ \square \end{array}$$

$$\begin{array}{c} 8 + 1 \\ \swarrow \searrow \\ \square \end{array}$$

$$\begin{array}{c} 8 - 1 \\ \swarrow \searrow \\ \square \end{array}$$

4. Scrie pe stelute rezultatul fiecărei scăderi.
